***Abstract*:** The present text has the task of reporting and commenting on a manuscript of the figure of the Bulgarian Enlightenment Neophyte Hilendarski Bozveli, kept in the Scientific Archive of the Bulgarian Academy of Sciences. The author of the manuscript aims to form a negative attitude towards the Patriarch of Constantinople and he was largely inspired by the reading of "Slavic Bulgarian History" by Paisius Hilendarski. The document is a product of the era of asserting the Bulgarian national identity and adds mew components to the national mythology, which, unfortunately, leaves deep traces in the imagery of our neighbors.

Keywords: Neophyte Hilendarski Bozveli, Paisius Hilendarski, "Slavic Bulgarian History", national identity, national mythology
